Exceeds the latest DOT standards backed up by independent laboratory reports.

Suitable for all applications including extreme racing.

Customize your hose with up to 32 different color combinations.

Each fitting is of OE design so NO adaptors are necessary.

Over 750 different brake hose fittings to choose from.

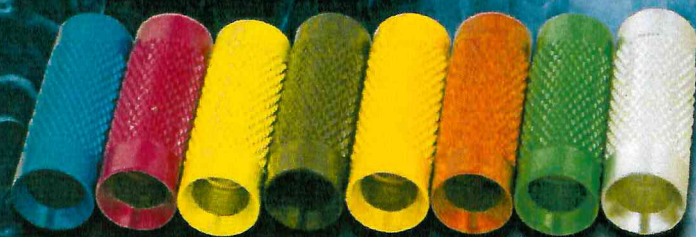

Choose from trivalent zinc plating or stainless steel finishes.

Design allows high temperature operation and longer life.

Every hose is pressure tested to 3000 psi.

Hoses can be made while you wait or same day.

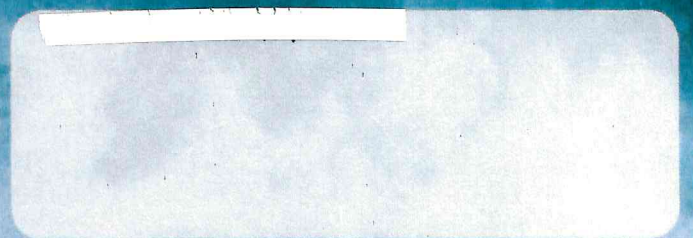

Dress up your hoses for that custom look!
Hose Colors come in Clear, Red, Blue and Black.

Dress collars come in Silver, Black, Red, Blue, Purple, Gold, Yellow and Green.

- ✓ Reduces braking distance during a panic stop.
- ✓ Eliminates pedal sponginess under heavy braking.
- ✓ Gives immediate brake pedal response.
- ✓ Provides compatibility with all brake fluids.

BrakeQuip
INNOVATIVE SOLUTIONS FOR AUTOMOTIVE PLUMBING

Power Steering Hose Repair Service

BrakeQuip
INNOVATIVE SOLUTIONS FOR AUTOMOTIVE FLOWING

Repair those failed power steering hoses instantly using the highest quality hose and unique fittings that allow the reusing of the existing fitting. This feature allows the flexibility to economically repair most power steering hoses.

Both high pressure and low pressure hoses available. This is important because if the high pressure hose has failed then the low pressure hose has also deteriorated and will need to be replaced at the same time.

Hose Information

High Pressure Hose

This hose has a high temperature rating and is compatible with all power steering oils. High expansion for noise resistance. Complies with SAE J2050 standard.

Temperature Range: -40°F to + 300°F
(-40°C to + 150°C)

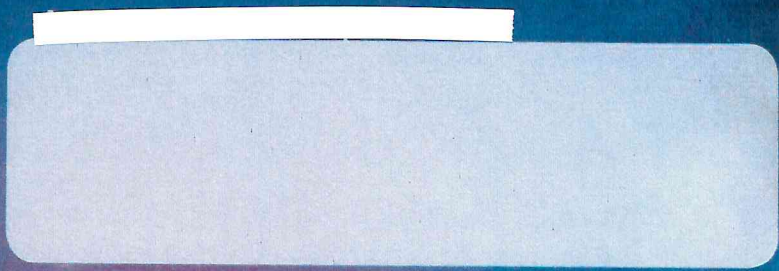

Note: Restrictors are available if required.

Low Pressure Hose

This hose has a high temperature rating and is compatible with all power steering oils. It has a fabric cover to distinguish it and for flexibility. Complies with SAE J1019 standard.

Temperature Range: -40°F to + 300°F
(-40°C to + 150°C)

All Types of Flares Available

Bubble Flare

45° Double flare

37° Double Flare

DIN Flare

AUTOMOTIVE TUBES... Made to Order

We can bend your tube to shape or you can do it yourself. (Bend's easily by hand.)
